

# THE ADVANCES INITIATIVE:

## New Advances in Headache Diagnosis and Treatment

### AUGMENTED REALITY PHYSICIAN *and* PATIENT LEARNING TOOL

*Welcome to augmented reality...a tour in the palm of your hand!*

This tool can be used for peer-to-peer, physician-to-patient, and physician-to-caregiver discussions. This tool will allow you to open up a pop-up, hands-on virtual world right in front of you. The tool displays the brain and guides you through descriptions, animations, and explanations regarding headache diagnosis and treatment. The images and animations that are brought to reality can be manipulated and controlled by YOU. It allows you to focus on specific areas and be truly engaged in the learning tool.

To use this augmented reality card, please download the “**ADVANCES Migraine Augmented Reality**” app from the Apple App Store or Google Play Store on your phone or tablet.

This activity is provided by Med Learning Group.

This activity is co-provided by Ultimate Medial Academy/CCM and Amedco.

Supported by an educational grant from Lilly.

Open the **ADVANCES Migraine Augmented Reality** app and point it at the image below.
